

HAMILTON EMMANUEL

FRONT-END WEBSITE DESIGNER

+234-708-475-3087

FCT Abuja, Nigeria

hamiltonsmart30@gmail.com

PROFESSIONAL SUMMARY

Creative and detail-oriented Front-End Designer with experience designing and developing responsive, user-centered websites and web applications. Skilled at transforming UI/UX concepts into modern, accessible, and high-performing interfaces using HTML, CSS, JavaScript, React, and Tailwind CSS. Passionate about creating visually appealing digital experiences while maintaining usability, performance, and brand consistency. Adept at collaborating with cross-functional teams in remote environments and delivering projects on time.

EDUCATION

2023 - 2025

National Institute of Construction Technology & Management, Uromi, Edo State

Computer Science & Programming

I have a background in Computer Science, where I gained a strong foundation in software development, system design, UI/UX design and the principles that drive modern computing. Through both formal training and hands-on experience, I developed solid skills in programming, working with languages such as Python, JavaScript, and PHP to build real-world applications.

EXPERIENCE

2025 - Present

Front-End Designer - BridgePoint Agency (Remote)

- Created interactive animations and transitions to improve user engagement.
- Tested, debugged, and maintained websites to ensure optimal performance.
- Worked in an Agile workflow while meeting project deadlines.
- Implemented reusable UI components to improve development efficiency and maintain consistency.

2023 - Present

Front-End Designer - ScalableHireBusiness (Remote)

- Built modern websites using HTML5, CSS3, JavaScript, React, and Tailwind CSS.
- Collaborated with UI/UX designers, developers, and marketing teams to deliver engaging digital experiences.
- Optimized websites for speed, accessibility, SEO, and cross-browser compatibility.
